

# Wine World Woes

The wine world has been struggling over the last several years, and this continued in 2023. Global wine consumption, production, and vineyard surface area were all down globally overall from the previous year. In fact, global wine production was the lowest in 2023 that the world has known since 1961.

Rank	Global Wine Consumption*		Rank	Global Wine Production*		Rank	Global Vineyard Surface Area*	
1	United States	15.1% ↓	1	France	20.2% ↑	1	Spain	13.1% ↓
